

Dear Store Manager,

I am a good customer who believes in combining the power of my purchasing dollar with principles that promote peace. Thus, I ask your store to stop stocking products made by **Keter Plastic**, which have also been marketed under the Black & Decker brand. Most of Keter's products are manufactured at a plant in an Israeli settlement on stolen Palestinian land. The U.S., along with most other countries, recognizes this land as belonging to a future Palestinian state. More information can be found in this report produced by the Israeli organization Who Profits?

<http://www.whoprofits.org/company/keter-plastic-keter-group>

If you cannot make this decision on your own, please share my request with the corporate officers who can.
